

Market commentary: The VN-index lost 0.8% due to profit taking before long holiday.

The VN-INDEX and the HNX-INDEX declined 0.8% and 0.6%, respectively, as Financials and Real Estate large caps fell under profit taking pressure and snapped the main market's upward momentum. After three consecutive gains the VN-INDEX made a good start of the holiday-shortened week and quickly climbed to the intraday peak of 785.7pts (+1.2%). However, a selling pressure suddenly emerged and dominated on some market pillars, pushing the index below the reference price level. Vietnam will mark its Reunification Day on 30 Apr and the Labour Day on 1 May. As profit taking took place widely on the market, major banking stocks suffered losses, including VCB (-3.0%), BID (-2.5%) and CTG (1.8%). Similarly, market pillars from Real Estate and Oil & Gas sectors joined the slide, including VIC (-1.1%), VHM (-0.8%), VRE (-2.1%), GAS (-1.4%), PLX(-2.8%) and MSN(-0.3%). Only several blue chips successfully overcame the selling force and landed in the green, including GVR (+ 6.9%), VPB (+2.4%) and POW (+3.6%). They were accompanied by construction stocks, including CTD (+5.6%) and HBC (+4.6%). Besides, VHC and ANV of the seafood sector hit the ceiling price with huge demand surplus after the U.S. authorities cut anti-dumping taxes on Vietnamese catfish products. But their overall support failed to keep the index up. Finally, the VN-INDEX closed at 770.8pts (-0.8%) and the HNX-INDEX also lost 0.6% to end at 106.3pts.

Only Industrials (+0.1%) rose while Energy (-2.8%), Financials (-1.8%) and Consumer Discretionary (-1.1%) lost ground. Top index movers included GVR (+6.9%), VPB (+2.4%), POW (+3.6%), KBC (+6.7%) and PHR (+6.4%). Top index laggards consisted of VCB (-3.0%), BID (-2.5%), VIC (-1.0%), GAS (-1.4%) and VHM (-0.7%). Top three major put-through transactions were EIB with 23.8m shares (VND357bn), GEX with 4.8m shares (VN78.2bn) and VPB with 3.9m shares (VND77.9bn).

Foreigners net sold on HOSE to the amount of VND461.4bn, and also net sold on HNX to the amount of VND12.8bn. They mainly bought VNM (VND38.7bn), VIC (VND23.6bn) and VHM (VND20.6bn); and mainly sold VCB (VND122bn), VNM (VND92.1bn) and VPB (VND83bn).

Market News

Oil slides back near US\$15 on glut while producers start cuts

Oil resumed its decline to trade near US\$15/barrel as swelling global crude stockpiles made it more difficult for leading producers to balance the market by curbing output. Futures in New York slid as much as 12%, snapping a four-day gain. While U.S. drilling is sliding and Saudi Arabia has started reducing output ahead of the start date for OPEC+ supply cuts, investors are focusing again on the massive glut of crude that's taking tanks close to capacity around the world, raising fears of a re-run of the crash that sent May West Texas Intermediate prices below zero for the first time ever last week. The swelling glut is set to test storage capacity limits in as little as three weeks, according to Goldman Sachs Group Inc., with traders, refiners and infrastructure providers seeking novel ways to hoard crude, including on tiny barges around Europe's petroleum-trading hub and in pipelines. The hub of Cushing, Oklahoma, the delivery point for American crude futures, is filling fast and putting added pressure on the U.S. benchmark. WTI for June delivery fell US\$2.03 to US\$14.91/barrel on the New York Mercantile Exchange as of 7:37 a.m. London time. The contract rose 2.7% on Friday, trimming the weekly decline to 32%. Brent for June settlement lost US\$1.10 to US\$20.34 after falling 24% last week. Dated Brent, a reference for nearly two-thirds of the world's physical oil flows, declined to US\$16.01/barrel on Friday, compared with US\$16.30 the day before, according to traders monitoring prices on S&P Global Platts. *(Bloomberg)*

Vietnam attracts US\$12.33bn in FDI in four months

Vietnam attracted US\$12.33bn in foreign direct investment (FDI) in the first four months of 2020, a year-on-year decrease of 15.5% due to the impact of the COVID-19 pandemic, according to the Foreign Investment Agency (FIA). The figure, however, was much higher than that of the same period of 2018 and 2017 with US\$5.8bn and US\$9.2bn, respectively, the FIA said. The four-month period saw 984 new foreign-invested projects licensed with a total registered capital of US\$6.78bn, down 9.1% in terms of project number but up 26.9% in value year-on-year. The Bac Lieu LNG-to-power project's investment capital is US\$4bn, accounting for 59% of the total FDI. From January to April, foreign investors spent US\$2.48bn buying shares or contributing capital to Vietnamese firms, down 65.3% year-on-year. According to FIA, FDI disbursement reached US\$5.15bn in the four months or equivalent to 90.4% of the last year's corresponding period. Foreign investors pledged to pour capital in 18 sectors, in which manufacturing and processing took the lead with nearly US\$6bn, accounting for 48.4% of the total capital. It was followed by power production and distribution (US\$3.9bn); wholesale and retail (US\$776m); and real estate (US\$665m), the FIA said. Singapore was the country's largest source of FDI as the committed volume accounted for 41% or US\$5.07bn. Thailand and Japan were the runners-up with US\$1.46bn and US\$1.16bn, respectively, followed by mainland China, Taiwan and the Republic of Korea. Among 54 localities receiving FDI in the four-month period, the southern province of Bac Lieu ranked top with US\$4bn. Southern Ba Ria-Vung Tau province came next with US\$1.9bn and HCM City placed third with US\$1.31bn, followed by Hanoi capital city and Ha Nam and Binh Duong provinces.

Foreign-invested sector's exports rose by 1.5% against last year to US\$55.75bn, making up 69.3% of the nation's four-month export value. Meanwhile, the sector's import value also picked up 3% to US\$46.32bn, accounting for 58% of the nation's import volume. *(Vietnamnet)*

Notable Corporate Events

Bank for Foreign Trade of Vietnam (VCB VN HOSE) – Bond Issues: VCB plans to raise VND6,000bn via an issuance of five-year unsecured bonds and proceeds will be used to supplement working capital and for dong-denominated loans, the bank said. The bonds, with a face value of VND100,000, will mature in 2025. *(Ndh.vn)*

DISCLAIMER

This report has been prepared by VNDIRECT or one of its affiliates for distribution in Vietnam and overseas. The information herein is believed by VNDIRECT to be reliable and is based on public sources believed to be reliable. With exception of information about VNDIRECT, VNDIRECT makes no representation about the accuracy of such information.

Options, estimates and projection expressed in this report represent the current views of the author at the date of publication only. They do not necessarily reflect the opinions of VNDIRECT and are subject to change without notice. VNDIRECT has no obligation to update, amend or in any way modify this report or otherwise notify a reader thereof in the event that any of the subject matter or opinion, projection or estimate contained within it changes or becomes inaccurate.

The information herein was obtained from various sources and we do not guarantee its accuracy or completeness. Prices and availability of financial instruments are also subject to change without notice.

This published research may be considered by VNDIRECT when buying or selling proprietary positions or positions held by funds under its management. VNDIRECT may trade for its own account as a result of short-term trading suggestions from analysts and may also engage in securities transactions in a manner inconsistent with this report and opinions expressed therein.

Neither the information nor any opinion expressed in this report constitutes an offer, nor an invitation to make an offer, to buy or sell any securities or any option, futures or other derivative instruments in any jurisdiction. Nor should it be construed as an advertisement for any financial instruments.

Officers of VNDIRECT may have a financial interest in securities mentioned in this report or in related instruments. This research report is prepared for general circulation for general information only. It does not have regard to the specific investment objectives, financial situation or particular needs of any person who may receive or read this report.

Investors should note that the prices of securities fluctuate and may rise and fall. Past performance, if any, is no guide to the future. The financial instruments discussed in this report may not be suitable for all investors. Investors must make their own financial decisions based on their independent financial advisors as they believe necessary and based on their particular financial situation and investment objectives.

This report may not be copied, reproduced, published or redistributed by any person for any purpose without the express permission of VNDIRECT in writing. Please cite sources when quoting.
