

Market Commentary: The VN-INDEX gained 5.5pts to reach 1,014.3pts

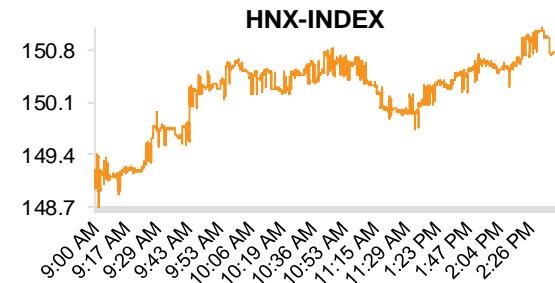

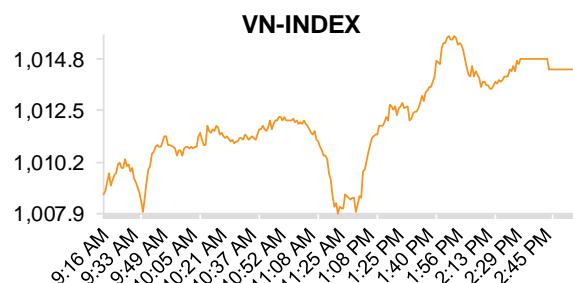

The VN-INDEX continued the uptrend in Tuesday's session backed by support from Real Estate and Financials sectors. Following the Dow Jones Industrial Average positive sentiment of a 0.6% rise, the VN-INDEX opened in the green. Notably, VHM became today's top mover, rising 2.3% to VND85,200, alone contributing 1.7pts to the index's gain. Other market pillars from the Financials and Utilities sectors also joined the rally, led by VCB (+1.6%), VIB (+6.9%), TCB (+2.4%), POW (+6.9%) and GAS (+0.6%). The VN-INDEX quickly rose to its intraday high of 1015.9pts (+0.7%) in the afternoon session, despite a few large caps fall, including VNM (-0.6%), HPG (-0.8%), and MWG (-1.7%). However, the laggards were minor to the index's gain. At the end of the session, the VN-INDEX continued yesterday's positive sentiment to end 0.5% up at 1,014.3pts. The HNX-INDEX also jumped 1.3% to land at 150.8pts.

Utilities (+1.2%), Financials (+0.9%), and Industrials (+0.6%) rose, while Consumer Discretionary (-1.0%) and Materials (-0.5%) lost ground today. Top index movers included VHM (+2.3%), VCB (+1.6%), SAB (+1.7%), TCB (+2.5%), and VIB (+7.0%). Top index laggards consisted of BCM (-4.2%), VNM (-0.6%), VNM (-0.8%), MWG (-1.7%), and BID (-0.5%).

Market News

Oil edges lower on signs of rising stockpiles, OPEC+ uncertainty

Oil slipped for a fourth day after an industry report pointed to a bigger-than-expected increase in U.S. crude stockpiles before a fractured OPEC+ gathers on Thursday to deliberate on its production policy. Futures slid 0.3% after falling 2.5% the past three days. The American Petroleum Institute reported crude inventories rose by 4.2m barrels last week, according to people familiar. If confirmed by government data on Wednesday, it would be double the median estimate in a Bloomberg survey. (*Bloomberg*)

ASEAN customs transit system launched

The online ASEAN Customs Transit System (ACTS) was officially launched on November 30 to accelerate trade in goods by road within Southeast Asia. Being developed with the support of the European Union, ACTS is simplifying the movement of goods across the region, making it more efficient and cost-effective. Following trials in Cambodia, Laos, Malaysia, Singapore, Thailand, and Vietnam, the system has now been formally launched. The first successful ACTS transit movement occurred on October 23-24 when a truck travelled from Singapore via Malaysia to Thailand. The system will soon be available in Myanmar, and, depending on business needs, may later be expanded to Brunei, Indonesia and the Philippines. ACTS could also support post-COVID recovery to accelerate the transit movement of medical supplies, vaccines and personal protective equipment within the member states. The system is managed by a permanent ACTS central management team based in the ASEAN Secretariat in Jakarta, Indonesia, with support from the EU-funded ARISE Plus program. (*Vietnamnet.vn*)

Coverage Universe Update

Nam Long Investment Group (NLG) – Update – ADD (+19.7%)

Cautiously optimistic for FY21-22F

Contrast between NLG's topline and bottomline in 3Q20

Nam Long Investment Corp (NLG) reported a 3Q20 topline of VND640.1bn, up 64.3% yoy. The strong growth was driven by a 49.0% yoy surge in project delivery revenue to VND289bn, mainly from Tan Thuan Dong (VND246bn). 3Q20 gross margin (GM) narrowed 42.0% pts yoy to 19.5% due to low-margin project delivery and a sharp decrease in GM of construction revenue (-20.4% pts yoy). This dragged down 3Q20 bottomline (-78% yoy) to only VND32bn. As such, 9M20 net profit fell 49.5% yoy to VND208bn, fulfilling only 14.6% our previous full-year projection.

Expect a strong rebound in 4Q20F earnings

We project revenue to fall by 71.9% yoy in 4Q20F to VND343bn due to the lack of property handover. Nevertheless, 4Q20F net profit should still rise by 22.5% yoy to VND672bn on the back of 1) capital transfer income of c.VND490bn from Waterfront project; and 2) the on-schedule villas and townhouses handover in BCC projects (Southgate Phase 1) at the end of 4Q20F yielding associate profit of VND367bn.

4Q20-FY21F outlook: strong presales expected

9M20 presales were VND3,346bn (+23% yoy) due to Southgate (VND2,497bn) and Flora Akari (VND780bn). We believe presales growth will stay strong in 4Q20F and 2021F, driven by the launch

of 760 condos in the next phase of Mizuki project in end-4Q20F and 3 potential FY21F projects (Southgate Phase 2, Waterfront and VSIP Hai Phong).

Downward adjustment on FY20-22F earnings forecasts

We reduce our FY21F net revenue forecast by 24.0% to VND1,734bn (+5.7% yoy) due to a delay in launching the VSIP Hai Phong project from 2020 to 2021F. We project NLG to report a net profit of VND1,127bn in FY21F (+28.1% yoy), driven by the huge delivery in BCC projects such as Akari (VND1,766bn) and Southgate (VND2,707bn), implying core EPS growth of +23% yoy.

Reiterate Add with a lower TP of VND34,800

We reiterate our Add rating with an RNAV-based TP to VND34,800. We believe it is worth accumulating NLG stocks, given its strong presales of VND7,702bn as of 30 Sep 2020 which translates to a promising outlook for FY21-22F. Re-rating catalysts are higher-than-expected selling prices of the next phase of Mizuki, Akari and Southgate projects. Key downside risks to our call are regulatory delays and higher mortgage rates as these may dent NLG's mid-range condo presales.

DISCLAIMER

This report has been prepared by VNDIRECT or one of its affiliates for distribution in Vietnam and overseas. The information herein is believed by VNDIRECT to be reliable and is based on public sources believed to be reliable. With exception of information about VNDIRECT, VNDIRECT makes no representation about the accuracy of such information.

Options, estimates and projection expressed in this report represent the current views of the author at the date of publication only. They do not necessarily reflect the opinions of VNDIRECT and are subject to change without notice. VNDIRECT has no obligation to update, amend or in any way modify this report or otherwise notify a reader thereof in the event that any of the subject matter or opinion, projection or estimate contained within it changes or becomes inaccurate.

The information herein was obtained from various sources and we do not guarantee its accuracy or completeness. Prices and availability of financial instruments are also subject to change without notice.

This published research may be considered by VNDIRECT when buying or selling proprietary positions or positions held by funds under its management. VNDIRECT may trade for its own account as a result of short-term trading suggestions from analysts and may also engage in securities transactions in a manner inconsistent with this report and opinions expressed therein.

Neither the information nor any opinion expressed in this report constitutes an offer, nor an invitation to make an offer, to buy or sell any securities or any option, futures or other derivative instruments in any jurisdiction. Nor should it be construed as an advertisement for any financial instruments.

Officers of VNDIRECT may have a financial interest in securities mentioned in this report or in related instruments. This research report is prepared for general circulation for general information only. It does not have regard to the specific investment objectives, financial situation or particular needs of any person who may receive or read this report.

Investors should note that the prices of securities fluctuate and may rise and fall. Past performance, if any, is no guide to the future. The financial instruments discussed in this report may not be suitable for all investors. Investors must make their own financial decisions based on their independent financial advisors as they believe necessary and based on their particular financial situation and investment objectives.

This report may not be copied, reproduced, published or redistributed by any person for any purpose without the express permission of VNDIRECT in writing. Please cite sources when quoting.
