

**Market commentary: The VN-INDEX made modest gain of 2.5pts despite strong selling pressure**

The VN-INDEX managed to stay in the green despite strong selling pressure and gained 2.5pts, while the HNX-INDEX suffered losses. Following the strong increase of the U.S. stock market last Friday with the Dow Jones Industrial Average Index jumping 337.3pts (+1.2%), the VN-INDEX began the trading week positively, with most stocks rising, notably BID, FPT, REE, SAB, VNM and VRE. Later, the index rose to its intraday high of 967.6pts (+0.4%). However, a selling pressure suddenly emerged in the afternoon session, thus narrowing the index's gain. The advance was mainly contributed by Oil & Gas and Food & Beverage sectors. Specifically, GAS was the largest supporter of the VN-INDEX and rose significantly by 1.8%, alone adding 1.0pts to the index's gain. Other market pillars from Food & Beverage sector also closed up, further strengthening the upward momentum, led by VNM (+1.6%) and SAB (+1.2%). On the other hand, some blue chips faced strong sell-off wave and closed down, including MSN (-3.2%), TCB (-1.5%), MBB (-1.8%), HVN (-1.4%) and CTG (-0.7%). At the end of the trading session, the VN-INDEX inched up 0.3% to close at 966.1pts, while the HNX-INDEX lost steam throughout the trading session and edged down 0.1% to end at 102.4pts (-0.1%).

**Utilities (+1.4%). Materials (+1.3%) and Health Care (+0.9%) rose while Industrials (-0.4%), Energy (-0.3%) and Financials (-0.1%) fell.** Top index movers included GAS (+1.8%), VNM (+1.6%), SAB (+1.2%), BID (+0.9%) and VRE (+1.7%). Top index laggards consisted of MSN (-3.2%), TCB (-1.5%), MBB (-1.8%), HVN (-1.4%) and CTG (-0.7%). Top three major put-through transactions were GEX with 13.8m shares (VND276.5bn), ROS with 10.5m shares (VND274.3bn) and TPB with 7.3m shares (VND158.6bn).

**Foreigners net bought on HOSE to the amount of VND62.2bn, while net sold on HNX to the amount of VND5.0bn.** They mainly bought VNM (VND122.3bn), VRE (VND57.0bn) and HPG (VND49.8bn); and mainly sold VNM (VND110.3bn), VRE (VND42.4bn) and MSN (VND38.2bn).

## Market News

**Oil Near 12-Week High After Saudis Surprise With Output Curbs.** Oil traded near the highest level in almost 12 weeks after Saudi Arabia surprised the market Friday with a significant supply cut beyond what was agreed to with fellow OPEC+ members. Futures in New York edged lower after climbing 1.3% Friday to cap a 7.3% weekly advance, the most since mid-June. The kingdom voluntarily pledged to pump 400,000 barrels a day less than mandated by OPEC+, translating to total overall curbs for the group of 2.1m barrels a day. *(Bloomberg)*

**Vietnam tightens supervision on foreign investment to prevent origin frauds.** A number of foreign-invested firms have falsely labeled their products as originating from Vietnam to avoid trade safeguard instruments amid the US-China trade war. Vietnamese authorities are keeping close watch on investment shift from foreign countries, especially China, into Vietnam to prevent product origin fraud and illegal transshipment. The move was made after the investment inflow from mainland China and Hong Kong to Vietnam has surged sharply this year, but the value of investment projects is insignificant. Reports from the Ministry of Planning and Investment's Foreign Investment Agency showed that in the January-October period, investment from mainland China in Vietnam skyrocketed by 200% against the figure in 2018, while inflows from Hong Kong jumped 400%. However, each foreign-invested project this year has a value of only some US\$1m. According to Tran Tuan Anh, Minister of Industry and Trade, to prevent goods origin fraud and illegal transshipment, provincial customs departments are collaborating with relevant ministries and government bodies to check all processes from granting licences to reviewing exporters' production capacity. Considering statistics on import-export revenue collected over the past few months, the General Department of Vietnam Customs (GDVC) will work with the Ministry of Industry and Trade to identify firms with an import-export revenue surge, for closer supervision. The GDVC proposed the ministry review and amend regulations covering origins of goods in Article 9 of Decree 31/2018/ND-CP, stipulating simple processes and the concept of simple processing of products to ease supervision and inspections of origin fraud. The customs agency also proposed the Ministry of Planning and Investment provide a list of firms receiving capital from countries subject to preventive measures imposed by the United States, and to intensify supervision of these firms. In addition, the GDVC suggested the Ministry of Science and Technology collaborate with the relevant ministries and departments to amend Decree 43/2017/ND-CP on labeling items to clearly provide that goods must meet origin regulations and have "Made in Vietnam" tags before they are shipped to foreign countries. *(Vietnamnet.vn)*

## Notable Corporate Events

**Duc Giang Chemicals Group - Joint Stock Company (DGC VN HNX) – State divestment:** The Vietnam National Chemical Group is expected to raise at least VND560bn from an auction of nearly 11.5m DGC shares, or 8.85% of the company, the group said in a statement via the Hanoi stock exchange. The auction is scheduled for Dec 31. *(Ndh.vn)*

## DISCLAIMER

This report has been prepared by VNDIRECT or one of its affiliates for distribution in Vietnam and overseas. The information herein is believed by VNDIRECT to be reliable and is based on public sources believed to be reliable. With exception of information about VNDIRECT, VNDIRECT makes no representation about the accuracy of such information.

Options, estimates and projection expressed in this report represent the current views of the author at the date of publication only. They do not necessarily reflect the opinions of VNDIRECT and are subject to change without notice. VNDIRECT has no obligation to update, amend or in any way modify this report or otherwise notify a reader thereof in the event that any of the subject matter or opinion, projection or estimate contained within it changes or becomes inaccurate.

The information herein was obtained from various sources and we do not guarantee its accuracy or completeness. Prices and availability of financial instruments are also subject to change without notice.

This published research may be considered by VNDIRECT when buying or selling proprietary positions or positions held by funds under its management. VNDIRECT may trade for its own account as a result of short-term trading suggestions from analysts and may also engage in securities transactions in a manner inconsistent with this report and opinions expressed therein.

Neither the information nor any opinion expressed in this report constitutes an offer, nor an invitation to make an offer, to buy or sell any securities or any option, futures or other derivative instruments in any jurisdiction. Nor should it be construed as an advertisement for any financial instruments.

Officers of VNDIRECT may have a financial interest in securities mentioned in this report or in related instruments. This research report is prepared for general circulation for general information only. It does not have regard to the specific investment objectives, financial situation or particular needs of any person who may receive or read this report.

Investors should note that the prices of securities fluctuate and may rise and fall. Past performance, if any, is no guide to the future. The financial instruments discussed in this report may not be suitable for all investors. Investors must make their own financial decisions based on their independent financial advisors as they believe necessary and based on their particular financial situation and investment objectives.

This report may not be copied, reproduced, published or redistributed by any person for any purpose without the express permission of VNDIRECT in writing. Please cite sources when quoting.
