

Market commentary: The VN-INDEX hit 12-week high on extended support from Financials, Real Estate large caps

Vietnam's stock market extended its upward momentum, with the VN-INDEX closing up 1.6% at the highest level in 12 weeks, as Financials and Real Estate large caps extended support. Vietnam's main stock index began the week strongly, with most stocks advancing. The rise was mainly supported by Financials and Real Estate stocks, the gains of which were behind the index's climbs in the previous two sessions. Specifically, VHM rose 3.3% and alone added 2.4pts to the index's gain, followed by other Real Estate tickers such as VRE (+1.1%) and VIC (+0.2%). Financials sector's blue chips joined the rally and further lifted the index near the 880-pt resistance level, led by BID (+3.4%), VCB (+1.5%), CTG (+4.4%) and VPB (+5.1%). On the other hand, several notable stocks suffered losses due to selling pressure, including TMP (-5.9%), SVC (-6.6%) and PDR (-1.1%). However, these laggards failed to put a brake on the index's move. At the end of the session, the VN-INDEX climbed to 878.7pts (+1.6%), the highest level since 6 Mar when it closed at 891.4pts. In Hanoi, the HNX-INDEX displayed a similar pattern and landed at 114.1pts (+0.9%), with strong support from ACB (+9.6%).

All sectors rose today, led by Financials (+2.7%), Real Estate (+1.6%) and Materials (+1.2%). Top index movers included VHM (+3.3%), BID (+3.4%), VCB (+1.5%), CTG (+4.4%) and VPB (+5.1%). Top index laggards consisted of TMP (-5.9%), SVC (-6.6%), VIS (-6.8%), PDR (-1.1%) and SVI (-7.0%). Top three major put-through transactions were VHM with 11.2m shares (VND807.2bn), GAB with 1.7m shares (VND255.5bn) and SHB with 5.2m shares (VND73.2bn).

Foreigners net bought on HOSE to the amount of VND31.4bn, while net sold on HNX to the amount of VND26.7bn. They mainly bought VNM (VND90.1bn), VHM (VND79.4bn) and FUSSVFL (VND48.0bn); and mainly sold VHM (VND54.6bn), VNM (VND53.5bn) and VRE (VND48.7bn).

Market News

Oil steadies with demand risks offset by report on OPEC+ cuts. Oil steadied after a fifth weekly gain as investors weighed the demand threats from unrest in the U.S. and deteriorating relations between Washington and Beijing against signs that OPEC+ may extend supply cuts. Futures in New York edged lower toward US\$35 a barrel after swinging between gains and losses earlier. OPEC and its allies will discuss prolonging production curbs by one to three months, according to a delegate, as the cartel considers bringing forward its next meeting a few days to June 4. The current agreement calls for the output cuts to ease from July. Crude surged a record 88% in May driven by the OPEC+ deal, involuntary production cuts in the U.S. and a return of demand in China. However, prices are still well below where they were at the beginning of the year and without additional reductions in supply, the rebound in consumption will need to show a sustained improvement for oil to keep rallying. West Texas Intermediate for July delivery declined 0.3% to US\$35.40 a barrel on the New York Mercantile Exchange as of 7:18 a.m. in London after rising 5.3% on Friday. Brent for August delivery fell 0.3% to US\$37.74 a barrel on the ICE Futures Europe exchange. The prospect of an extension of curbs by OPEC+ comes amid indications the alliance is closely following April's agreement. The coalition - which includes OPEC's 13 members plus another 10 exporters - has achieved 92% compliance, according to an estimate by data intelligence firm Kpler. *(Bloomberg)*

Vietnam's garment exports forecast to plummet due to lack of orders. Vietnam's garment and textile exports in the first four months fell 10% yoy to US\$10.63bn and could fall much further as buyers cancelled orders due to COVID-19, according to the Vietnam Textile and Apparel Association (Vitas). In April alone, exports of Vietnamese garment and textile products saw a month-on-month decline of 20% to US\$2.3bn, the association's statistics revealed. According to the Vietnam National Textile and Garment Group (Vinatex), the domestic textile and garment industry could lose up to 50% of orders in May. Meanwhile, the recovery of supply amid falling demand might lead to a 20% reduction in prices worldwide, it said. For Vinatex, in the second quarter, the group will continue to produce face masks and medical protective clothes to meet high demand in foreign markets while ensuring stable operation to catch up with customers' demand once the market shows signs of recovery. The group also predicted that textile and garment exports will rebound in the third and fourth quarters with low-cost products accounting for the lion's share of turnover. *(Vietnamnet.vn)*

Notable Corporate Events

Dat Xanh Group JSC (DXG VN HOSE) – 2020 business targets: DXG has projected net revenue and net profit for 2020F are VND4,900bn (-16% yoy) and VND1,034bn (-15% yoy), based on the targets approved at the company's recent AGM meeting. *(Vietstock.vn)*

DISCLAIMER

This report has been prepared by VNDIRECT or one of its affiliates for distribution in Vietnam and overseas. The information herein is believed by VNDIRECT to be reliable and is based on public sources believed to be reliable. With exception of information about VNDIRECT, VNDIRECT makes no representation about the accuracy of such information.

Options, estimates and projection expressed in this report represent the current views of the author at the date of publication only. They do not necessarily reflect the opinions of VNDIRECT and are subject to change without notice. VNDIRECT has no obligation to update, amend or in any way modify this report or otherwise notify a reader thereof in the event that any of the subject matter or opinion, projection or estimate contained within it changes or becomes inaccurate.

The information herein was obtained from various sources and we do not guarantee its accuracy or completeness. Prices and availability of financial instruments are also subject to change without notice.

This published research may be considered by VNDIRECT when buying or selling proprietary positions or positions held by funds under its management. VNDIRECT may trade for its own account as a result of short-term trading suggestions from analysts and may also engage in securities transactions in a manner inconsistent with this report and opinions expressed therein.

Neither the information nor any opinion expressed in this report constitutes an offer, nor an invitation to make an offer, to buy or sell any securities or any option, futures or other derivative instruments in any jurisdiction. Nor should it be construed as an advertisement for any financial instruments.

Officers of VNDIRECT may have a financial interest in securities mentioned in this report or in related instruments. This research report is prepared for general circulation for general information only. It does not have regard to the specific investment objectives, financial situation or particular needs of any person who may receive or read this report.

Investors should note that the prices of securities fluctuate and may rise and fall. Past performance, if any, is no guide to the future. The financial instruments discussed in this report may not be suitable for all investors. Investors must make their own financial decisions based on their independent financial advisors as they believe necessary and based on their particular financial situation and investment objectives.

This report may not be copied, reproduced, published or redistributed by any person for any purpose without the express permission of VNDIRECT in writing. Please cite sources when quoting.
