

**Market commentary: The VN-INDEX ended up at 900pts as Financials stocks lent strong support**

The VN-INDEX rebound strongly and finally gained 0.6pts to land at 900.0pts, the highest in around 15 weeks, with strong support coming from Financials and Real Estate large caps. Vietnam's main stock index began the session cautiously and gradually slumped to its intraday low of 890.3pts (-1.0%) as several large caps fell under strong selling pressure, including VIC (-0.6%), GAS (-0.5%), VNM (-1.6%) and SAB (-0.4%). However, the index rebounded strongly in the afternoon session as other market pillars rallied, led by Financials stocks. Notably, CTG became the largest supporter of the index, rising strongly by 1.8%, followed by MBB (+2.8%), TCB (+1.4%) and BID (+0.3%). Moreover, STB hit the ceiling price with a huge demand surplus. These movers helped the VN-INDEX regain early losses to close at 900pts (+0.1%), the first visit since 25 Feb 2020 when it closed at 909.7pts. Similarly, the HNX-INDEX climbed to 120.7pts (+0.5%).

**Consumer Discretionary (+0.9%), Financials (+0.8%) and Industrials (+0.4%) rose, while Consumer Staples (-0.8%), IT (-0.4%) and Utilities (-0.2%) lost ground.** Top index movers included CTG (+1.8%), STB (+7.0%), MBB (+2.8%), TCB (+1.4%) and BID (+0.3%). Top index laggards consisted of VNM (-1.6%), VIC (-0.6%), GVR (-3.0%), GAS (-0.5%) and SAB (-0.4%). Top three major put-through transactions were VCB with 2.6m shares (VND230.7bn), TDP with 7.9m shares (VND157.5bn) and FUEVFNVD with 11m shares (VND135.7bn).

**Foreigners net bought on HOSE to the amount of VND48.8bn, while net sold on HNX to the amount of VND11.4bn.** They mainly bought VCB (VND278bn), FUEVFNVD (VND139bn) and VNM (V-ND102bn); and mainly sold VCB (VND252bn), VNM (VND78.3bn) and PC1 (VND59bn).

## Market News

### Oil retreats toward US\$38 on signs U.S. crude stockpiles expanded

Oil retreated toward US\$38/barrel after a U.S. industry report signaled a surprise jump in crude inventories, raising fresh concerns about excess supply. Futures dropped 1.9% in New York, erasing almost all of the gains from the previous session. The American Petroleum Institute reported that stock piles expanded by 8.42m barrels last week, according to people familiar with the data. If confirmed by government figures on Wednesday, it would be the largest build since the end of April. Investors shrugged off a report that armed men forced output to halt again at Libya's biggest oil field. Oil is still recovering from the virus-driven demand crash that pushed crude below zero in April as supply cuts trim oversupply and an easing of restrictions boosts consumption. While lockdowns have been relaxed in parts of the U.S., there are concerns that higher prices may encourage some producers to pump more, adding further pressure to a global glut. Along with official crude stockpile data on Wednesday, investors will turn their focus to the Federal Reserve where the central bank will probably use its meeting to shed light on various lending plans without easing further. *(Bloomberg)*

### Finance Ministry wants to cut 30% of environment protection tax on jet fuel

The Ministry of Finance has proposed to cut environmental protection tax on jet fuel by 30%, from VND3,000 to VND2,100 per litre. The reduction is expected to help remove difficulties for the aviation industry due to the serious impact of the COVID-19 pandemic. The proposal is part of the National Assembly Standing Committee's draft resolution on environmental protection tax on jet fuel, which has been sent to gather ideas and contributions from ministries and sectors. The ministry calculated that with such a reduction, the State budget revenue will fall VND87.33bn (US\$3.8m) per month. However, the cut will help air transport businesses ease the financial burden and maintain business operations as the COVID-19 pandemic is still serious and unpredictable worldwide. The Finance Ministry asked ministries, sectors, localities and agencies to send their comments before June 10, 2020. This resolution is expected to be effective until the end of this year. Vietnam has initially controlled the pandemic; however, the disease continues to cause issues around the world. Restrictions on travel as well as interrupted production and business activities have made the aviation industry one of the most affected sectors. According to the assessment of the Civil Aviation Authority of Vietnam, if the pandemic is controlled this month, the 2020 transportation market will reach only 61.2m visitors, down 22.6% yoy. Of the figure, Vietnamese airlines are estimated to carry 10.4m foreign visitors and 35.3m domestic visitors, down 41.2% and 5.5%, respectively. *(Vietnamnet.vn)*

## Notable Corporate Events

**KIDO Frozen Foods JSC (KDF VN UPCoM) – 2020 business targets –** : KDF has projected 2020F revenue and profit before tax at VND1,600bn (+15.7% yoy) and VND200bn (+7.9% yoy), based on the company's targets approved at a recent AGM. KDF has also planned to be merged into Kido Group, its parent firm. *(Ndh.vn)*

## DISCLAIMER

This report has been prepared by VNDIRECT or one of its affiliates for distribution in Vietnam and overseas. The information herein is believed by VNDIRECT to be reliable and is based on public sources believed to be reliable. With exception of information about VNDIRECT, VNDIRECT makes no representation about the accuracy of such information.

Options, estimates and projection expressed in this report represent the current views of the author at the date of publication only. They do not necessarily reflect the opinions of VNDIRECT and are subject to change without notice. VNDIRECT has no obligation to update, amend or in any way modify this report or otherwise notify a reader thereof in the event that any of the subject matter or opinion, projection or estimate contained within it changes or becomes inaccurate.

The information herein was obtained from various sources and we do not guarantee its accuracy or completeness. Prices and availability of financial instruments are also subject to change without notice.

This published research may be considered by VNDIRECT when buying or selling proprietary positions or positions held by funds under its management. VNDIRECT may trade for its own account as a result of short-term trading suggestions from analysts and may also engage in securities transactions in a manner inconsistent with this report and opinions expressed therein.

Neither the information nor any opinion expressed in this report constitutes an offer, nor an invitation to make an offer, to buy or sell any securities or any option, futures or other derivative instruments in any jurisdiction. Nor should it be construed as an advertisement for any financial instruments.

Officers of VNDIRECT may have a financial interest in securities mentioned in this report or in related instruments. This research report is prepared for general circulation for general information only. It does not have regard to the specific investment objectives, financial situation or particular needs of any person who may receive or read this report.

Investors should note that the prices of securities fluctuate and may rise and fall. Past performance, if any, is no guide to the future. The financial instruments discussed in this report may not be suitable for all investors. Investors must make their own financial decisions based on their independent financial advisors as they believe necessary and based on their particular financial situation and investment objectives.

This report may not be copied, reproduced, published or redistributed by any person for any purpose without the express permission of VNDIRECT in writing. Please cite sources when quoting.
