

**Market commentary: Escalating sell-off wave pushed the VN-INDEX down**

The VN-INDEX ended down 0.7% as large caps faced aggressive selling pressure, and the HNX-INDEX also declined 0.8%. The VN-INDEX kicked off positively and quickly climbed to its intraday high of 1,012.1pts (+0.2%). However, the index gradually lost steam throughout the rest of the trading session as selling pressure emerged and dominated on many large caps. Specifically, VCB became the largest laggard and dropped 2.3%, alone wiping 2.3pts off the index, followed by smaller Financials stocks such as BID (-1.7%) and TCB (-1.8%). Other market pillars from Real Estate and Food & Beverage sectors also slumped and further exacerbated the downward momentum, including VIC (-1.3%) and VNM (-1.8%). On the other hand, some blue-chips successfully overcame the sell-off wave to land in the green, led by GAS (+0.5%), HPG (+1.1%), SAB (+0.4%). However, these advancers were far surpassed by the other bearish large caps. Finally, the VN-INDEX declined 0.7% to close at 1,002.9pts, and the HNX-INDEX also lost ground, falling 0.8% to end at 105.2pts.

**Materials (+0.8%) and Utilities (+0.7%) rose while IT (-1.8%), Financials (-1.5%) and Energy (-0.9%) dropped.** Top index movers included GAS (+0.5%), HPG (+1.1%), SAB (+0.4%), POW (+1.5%) and PPC (+4.8%). Top index laggards consisted of VCB (-2.3%), VIC (-1.3%), VNM (-1.8%), BID (-1.7%) and TCB (-1.8%). Top three major put-through transactions were TBD with 1.0m shares (VND85.8bn), VIC with 0.5m shares (VND54.0bn) and DBD with 0.9m shares (VND53.9bn).

**Foreigners net sold on HOSE to the amount of VND108.2bn, and also net sold on HNX to the amount of VND0.4bn.** They mainly bought VRE (VND81.5bn), VHM (VND26.1bn) and VNM (VND24.5bn); and mainly sold VNM (VND104.5bn), VIC (VND81.7bn) and ROS (VND26.7bn).

## Market News

**Oil holds near eight-week high on U.S.-China trade deal optimism.** Oil held gains near the highest close in eight weeks on signs of progress toward a breakthrough in the prolonged U.S.-China trade war, while Saudi Arabia set a valuation for Aramco's initial public offering. Futures were little changed in New York after rising 1.7% on Friday to close at the highest since Sept. 23. Trade negotiators held "constructive discussions" in a phone call Saturday to address each side's core concerns surrounding a phase one deal. Saudi Arabia will sell just 1.5% of Aramco's shares and set a valuation target of US\$1.6tr to US\$1.71tr for its IPO. (*Bloomberg*)

**Vietnam to give tax incentives to automobile manufacturers, electric car imports.** Prime Minister Nguyen Xuan Phuc has instructed the Ministry of Finance (MoF) to look at taxes and fees related to automobile manufacturing and assembly in order to help the sector grow. The PM also asked relevant ministries and departments to create good conditions to help the industry "take advantage of latecomers" by developing the local engineering industry and joining the global value chain. That involved helping enterprises access information, advanced technology and the application of new technologies such as robotics, 3D printing and self automation to improve productivity and competitiveness. The Ministry of Science and Technology has been tasked with stepping up research and development to manufacture high-tech products and to expand scientific and technological co-operation with strategic partners. Regarding taxes and fees, the government leader requested the MoF to submit a proposal with amended policies to help automobile manufacturers and assemblers increase the domestic value ratio, reduce costs, and increase competitiveness against imported Complete Built-Up products. The PM also instructed the MoF to offer import tariff incentives for parts used to assemble environmentally-friendly cars. Earlier this year, the MoF announced a plan to add electric cars to the list of incentive tax beneficiaries, saying it would encourage the development of the local car industry. Up to now, there are no Vietnamese businesses manufacturing or assembling environmentally-friendly vehicles, which the ministry defines as electric, hybrid, biofuel or compressed natural gas powered. There are 358 businesses in the auto industry, but the country imports over 90% of its auto parts. Most cars sold in the country are foreign brands imported or assembled locally. Most recently, Hanoi was struck by unsafe levels of pollution, making it among the worst in the world, with environmental authorities reporting that levels of PM 2.5 – tiny air particles – had reached a five-year high. According to data, 70% of the volume of gases emitted into the environment comes from motor vehicles. There are many outdated vehicles which emit a huge amount of gas in Hanoi and Ho Chi Minh City.
