

**Market commentary: The VN-INDEX neared 1-month low as strong selling hit Financials, Food & Beverage large caps.**

The VN-INDEX dropped below the 1,000-pt threshold to the lowest level in nearly a month as Financials, Food & Beverage and Real Estate large caps fell under strong selling. The index kicked off cautiously and quickly dipped below the reference level as many large caps started off in red, such as BVH, HPG, MWG and VNM. Specifically, VCB became the largest laggard and fell 2.2%, alone wiping 2.2pts off the index. Other Financials stocks dropped, among which TCB decreased significantly by 3.7%, while EIB hit the floor price, with huge supply surplus. Moreover, market pillars from Food & Beverage and Real Estate sectors also slumped and further expanded the existing bearish sentiment, including VNM (-1.6%), SAB (-2.2%) and VHM (-0.9%). On the contrary, just several notable stocks successfully overcame the sell-off wave to end up, led by PPC (+1.8%), CII (+2.1%) and DHG (+1.0%). However, these advancers were far surpassed by the other bearish large caps. As a result, the VN-INDEX closed at its intraday low of 987.9pts (-1.3%), the lowest level since 23 Oct when it ended at 987.8pts. In Hanoi, the HNX-INDEX also slipped to 104.7pts (-0.2%).

**Financials (-1.9%), Consumer Staples (-1.8%) and Consumer Discretionary (-1.8%) dropped while only Health Care unchanged.** Top index movers included PPC (+1.8%), CII (+2.1%), DHG (+1.0%), HVG (+7.0%) and PME (+2.8%). Top index laggards consisted of VCB (-2.2%), VNM (-1.6%), SAB (-2.2%), TCB (-3.7%) and VHM (-0.9%). Top index laggards consisted of VCB (-2.2%), VNM (-1.6%), SAB (-2.2%), TCB (-3.7%) and VHM (-0.9%).

**Foreigners net sold on HOSE to the amount of VND245.4bn, and also net sold on HNX to the amount of VND11.9bn.** They mainly bought VRE (VND342.1bn), VNM (VND95.4bn) and HPG (VND52.9bn); and mainly sold VRE (VND300.2bn), KDH (VND260.1bn) and VIC (VND94.5bn).

## Market News

**Oil Eases as Trade Deal Outlook Offsets Falling U.S. Stockpiles.** Oil eased after the biggest increase in more than two weeks as investors monitor developments in the U.S.-China trade war, while stockpiles shrink at a key American crude storage hub. January futures lost 0.2% in New York after rising 3% on Wednesday, the biggest increase since Nov. 1. China's Vice Premier Liu He said he was "cautiously optimistic" about reaching an initial trade deal even as President Donald Trump is expected to sign a bill supporting Hong Kong protesters, a move that could complicate negotiations. U.S. crude inventories at Cushing fell 2.3m barrels last week, the most since August. (*Bloomberg*)

**Vietnam's bond market grows 1.9% in Jan-Sep, reaching US\$55bn.** Vietnam's bond market registered a growth of 3.4% on-quarter and 1.9% year-on-year to US\$55.1bn as of the end of September, according to the latest edition of the Asian Development Bank's (ADB) Asia Bond Monitor. This expansion was due mainly to a 4% on-quarter growth in government bonds to US\$51bn as the State Bank of Vietnam, the country's central bank, increased the issuance of central bank bills. The overall expansion of the country's local currency bond market was slightly tempered by a 2.8% contraction on-quarter in the corporate bond market to US\$5bn. Nevertheless, the corporate bond market still posted growth of 4.2% year-on-year. (*Vietnamnet.vn*)

## Market Strategy

### **ETF MONITOR 4Q19: GEX IS EXPECTED TO BE EXCLUDED FROM FTSE VIETNAM INDEX**

**FTSE ETF (FTSE Vietnam Index) and V.N.M ETF (MVIS Vietnam index) will announce their results of portfolio review on this 6 Sep and 13 Sep 2019, respectively.** Then, these ETFs, which are managing a total of US\$746.1m in NAV, will carry several trading activities to rebalance the weight of stocks in these portfolios according to the newly structured indexes.

**FTSE Vietnam Index: VJC in – CII out.** Based on data as at 20 Aug 2019, we believe VJC has met all the requirements to be added to the FTSE Vietnam index, including trading liquidity, available foreign room and investable market cap for foreign investors. VJC's last 3-month average daily trading value was US\$3.6m, higher than the minimum requirement of US\$1.0m (Noted that, US\$1.0m is equivalent to 40% of average daily trading value of all existing stocks in FTSE Vietnam Index). Additionally, VJC's current available foreign room was 10.8%, above the 10% level required by FTSE. We estimate the allocation of VJC in the FTSE Vietnam Index will be about 4.4%, equivalent to about US\$12.6m of this stock possibly acquired by FTSE ETF. On the other hand, CII might be removed from FTSE Vietnam Index as the stock has just fallen short of FTSE's requirements in terms of trading liquidity. CII's last 3-month average daily trading value was US\$0.4m, far below the minimum requirement of US\$0.5m (Noted that, US\$0.5m is equivalent to 20% of average daily trading value of all existing stocks in the FTSE Vietnam Index).

**MVIS Vietnam Index: VJC in – NT2 out.** We believe VJC stock is also well aligned with MVIS' requirements of liquidity (at least US\$1.0m) and available foreign room (at least 10%). Additionally, the stock's full market cap was US\$3bn as at 20 Aug, far above the minimum requirement of US\$150m. NT2 could be excluded from the MVIS Vietnam Index as the stock just fell out of the top 98% market capitalization of qualified stocks in the current portfolio, based on our estimation. The country weight of Vietnam is expected to stay at 71.67% post-review. We estimate that VNM ETF will probably buy US\$19.2m of VJC shares, weighing 4.2% of its portfolio.

### **Notable Corporate Events**

**Phu Nhuan Jewelry Joint Stock Company (PNJ VN HOSE) - 10M19 business results:** PNJ has recorded 10M19 revenue and after-tax profit of VND13,395bn (+13% yoy) and VND935bn (+17% yoy), respectively, the company said in its 10-month business report. The 10M19 profit means PNJ has completed 79% of its FY19 plan. (*Cafef.vn*)

## DISCLAIMER

This report has been prepared by VNDIRECT or one of its affiliates for distribution in Vietnam and overseas. The information herein is believed by VNDIRECT to be reliable and is based on public sources believed to be reliable. With exception of information about VNDIRECT, VNDIRECT makes no representation about the accuracy of such information.

Options, estimates and projection expressed in this report represent the current views of the author at the date of publication only. They do not necessarily reflect the opinions of VNDIRECT and are subject to change without notice. VNDIRECT has no obligation to update, amend or in any way modify this report or otherwise notify a reader thereof in the event that any of the subject matter or opinion, projection or estimate contained within it changes or becomes inaccurate.

The information herein was obtained from various sources and we do not guarantee its accuracy or completeness. Prices and availability of financial instruments are also subject to change without notice.

This published research may be considered by VNDIRECT when buying or selling proprietary positions or positions held by funds under its management. VNDIRECT may trade for its own account as a result of short-term trading suggestions from analysts and may also engage in securities transactions in a manner inconsistent with this report and opinions expressed therein.

Neither the information nor any opinion expressed in this report constitutes an offer, nor an invitation to make an offer, to buy or sell any securities or any option, futures or other derivative instruments in any jurisdiction. Nor should it be construed as an advertisement for any financial instruments.

Officers of VNDIRECT may have a financial interest in securities mentioned in this report or in related instruments. This research report is prepared for general circulation for general information only. It does not have regard to the specific investment objectives, financial situation or particular needs of any person who may receive or read this report.

Investors should note that the prices of securities fluctuate and may rise and fall. Past performance, if any, is no guide to the future. The financial instruments discussed in this report may not be suitable for all investors. Investors must make their own financial decisions based on their independent financial advisors as they believe necessary and based on their particular financial situation and investment objectives.

This report may not be copied, reproduced, published or redistributed by any person for any purpose without the express permission of VNDIRECT in writing. Please cite sources when quoting.
