

**Market commentary: The VN-INDEX fell to 11-week low as large caps plummeted**

The VN-INDEX dropped 0.8% to an 11-week low while the HNX-INDEX also lost 0.9%, as large caps fell under strong selling. Contrary to the uptrend of the U.S. stock market, the VN-INDEX kicked off cautiously as many blue chips started off in the red. Later, the index dropped further to its intraday low of 967.7pts (-1.1%) before slightly recovering in the late session. VHM lost 1.5% and became the largest laggard, alone wiping 1.4pts off the index. Other market pillars from Financials and Utilities sectors also slumped and further extended the downward momentum, including VCB (-1.2%), CTG (-2.9%) and GAS (-1.2%). On the other hand, very few blue chips managed to skirt the sell-off wave and ended up, led by VJC (+0.6%), VIC (+0.1%) and TCH (+3.1%). However, these advancers were far surpassed by the other bullish large caps. As a result, the VN-INDEX lost 7.8pts to close at 970.4pts, the lowest level since 11 Sep when it ended at 969.3pts. In Hanoi, the HNX-INDEX also ended down at 102.3pts (-0.9%).

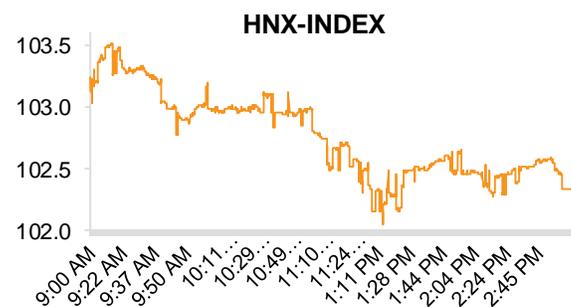

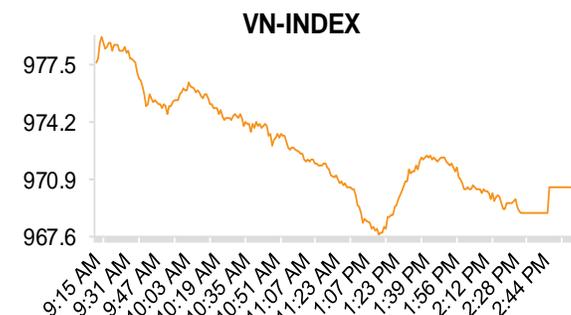

**Consumer Discretionary (-2.0%), IT (-1.8%) and Financials (-1.8%) dropped while only Industrials stood unchanged.** Top index movers included VJC (+0.6%), VIC (+0.1%), TCH (+3.1%), VSH (+5.1%) and VHC (+3.2%). Top index laggards consisted of VHM (-1.5%), VCB (-1.2%), GAS (-1.2%), CTG (-2.9%) and MWG (-3.7%). Top three major put-through transactions were SBT with 8.0m shares (VND150.6bn), TCB with 4.5m shares (VND104.0bn) and TPB with 4.0m shares (VND87.6bn).

**Foreigners net bought on HOSE to the amount of VND35.8bn, while net sold on HNX to the amount of VND1.1bn.** They mainly bought VNM (VND70.3bn), MBB (VND48.3bn) and ROS (VND32.5bn); and mainly sold VNM (VND62.9bn), MBB (VND48.3bn) and ROS (VND29.6bn).

## Market News

**OPEC and watchers see extension of deal but no deeper output cuts.** Any expectations that OPEC and its partners will make deeper cuts to oil production have all but evaporated. Just one out of 35 analysts and traders in a global survey by Bloomberg predicted that the Organization of Petroleum Exporting Countries and its allies will agree a further reduction when they meet next week. Most of them expect the 24-nation coalition - which cut output by 1.2m barrels a day this year to prevent a glut - will decide to prolong their existing supply limits until the middle of 2020. That's a shift from the start of this month, when the group's promises to do "whatever it takes" to balance markets inspired expectations of further action in a more sizable minority. Back then, nine out of 38 were anticipating a deeper cutback. (*Bloomberg*)

**China's investment in Vietnam surges amid trade war.** Direct investment flows from Hong Kong and mainland China to Vietnam increased by 3.9-fold and 2-fold yoy in the January–November period, respectively, amid escalation of the ongoing U.S.–China trade tensions, a report of the Foreign Investment Agency (FIA) under the Ministry of Planning and Investment showed. The data shows that out of 117 countries and territories investing in Vietnam in the eleven-month period, Hong Kong (China) took the lead with US\$6.7bn. South Korea came second with US\$5.7bn, while the third place belonged to Singapore with US\$4.5bn. FDI commitments in the January–November period totaled US\$31.8bn, up 3.1% yoy, according to FIA. Disbursement of foreign direct investment (FDI) projects in Vietnam totaled US\$17.7bn between January and November, an increase of 7.2% yoy. Year to November 20, 3,478 new projects have been approved with total commitments of US\$14.7bn, up 28.2% in number of projects and down 7% in capital yoy, while 1,256 existing projects have been injected an additional US\$5.9bn, up 20% in projects and down 20.7% in capital. During this period, 8,561 projects have had US\$11.2bn in capital contributed by foreign investors, up 47.1% yoy and accounting for 35.4% of total registered capital. Investors have poured money into 19 fields and sectors, in which manufacturing and processing continued to attract substantial attention with investment of US\$21.6bn, or 67.8% of the total registered capital, followed by real estate with US\$3.3bn or 10.4% of the total, and retail and wholesale, science and technologies. Some of the big-ticket projects in the January–November period include a smart city project in Hanoi with registered capital of US\$4.1bn; US\$1.2bn polypropylene (PP) manufacturing plant in Ba Ria–Vung Tau province; US\$3.9bn in capital contribution from Hong Kong-based Beerco Limited to Vietnam Beverage for a beer project in Hanoi. In addition, on the list were an injection of an additional US\$410m to LG Display Hai Phong; the US\$260m electronic manufacturing plant by Goertek (Hong Kong) located in Bac Ninh province; tire manufacturing plant worth US\$280m from a Chinese investor in Tay Ninh province and a similar project worth US\$214.4m financed by Guizhou Advance Type Investment (China) in Tien Giang province; and a solar power project worth US\$216.7m from Thai investors in Phu Yen province. ## DISCLAIMER

This report has been prepared by VNDIRECT or one of its affiliates for distribution in Vietnam and overseas. The information herein is believed by VNDIRECT to be reliable and is based on public sources believed to be reliable. With exception of information about VNDIRECT, VNDIRECT makes no representation about the accuracy of such information.

Options, estimates and projection expressed in this report represent the current views of the author at the date of publication only. They do not necessarily reflect the opinions of VNDIRECT and are subject to change without notice. VNDIRECT has no obligation to update, amend or in any way modify this report or otherwise notify a reader thereof in the event that any of the subject matter or opinion, projection or estimate contained within it changes or becomes inaccurate.

The information herein was obtained from various sources and we do not guarantee its accuracy or completeness. Prices and availability of financial instruments are also subject to change without notice.

This published research may be considered by VNDIRECT when buying or selling proprietary positions or positions held by funds under its management. VNDIRECT may trade for its own account as a result of short-term trading suggestions from analysts and may also engage in securities transactions in a manner inconsistent with this report and opinions expressed therein.

Neither the information nor any opinion expressed in this report constitutes an offer, nor an invitation to make an offer, to buy or sell any securities or any option, futures or other derivative instruments in any jurisdiction. Nor should it be construed as an advertisement for any financial instruments.

Officers of VNDIRECT may have a financial interest in securities mentioned in this report or in related instruments. This research report is prepared for general circulation for general information only. It does not have regard to the specific investment objectives, financial situation or particular needs of any person who may receive or read this report.

Investors should note that the prices of securities fluctuate and may rise and fall. Past performance, if any, is no guide to the future. The financial instruments discussed in this report may not be suitable for all investors. Investors must make their own financial decisions based on their independent financial advisors as they believe necessary and based on their particular financial situation and investment objectives.

This report may not be copied, reproduced, published or redistributed by any person for any purpose without the express permission of VNDIRECT in writing. Please cite sources when quoting.
