

## Market Commentary: The VN-INDEX made biggest fall in nearly 6 weeks as profit taking overwhelmed

The VN-INDEX lost 1.5%, the biggest fall since late Jul, as extended aggressive selling pushed down large caps, especially those in Financials and Utilities sectors, and the HNX-INDEX also dropped 0.6%. Vietnam's main stock index edged up right after the opening bell and climbed to the intraday peak of 905.8pts (+0.5%). The advance was mainly fuelled by Real Estate stocks, with BCM and PDR both rising 6.9% to the ceiling price and together adding 1.0pts to the index's gain. The Consumer Staples sector also had a positive trading day, with VNM and HNG rising 0.8% and 4.6%, respectively. However, as the session was nearing its end, profit taking activities emerged and overwhelmed other large caps, thus pushing the VN-INDEX below the reference price level. Notably, VIC became the top laggard as it dropped 2.7% to VND91,500, alone wiping 2.4pts off the index. Several market pillars from Financials and Utilities sectors joined the slide, including BID (-3.6%), GAS (-3.5%), VCB (-1.5%), and CTG (-3.8%). The laggards far surpassed the bullish large caps, thus forcing the VN-INDEX to drop 1.5%, the biggest correction since 29 Jul when it fell 2.8%, to its close at the intraday low of 888.3pts. The HNX-INDEX also slid 0.6% to end at 125.4pts, the first fall in four sessions.

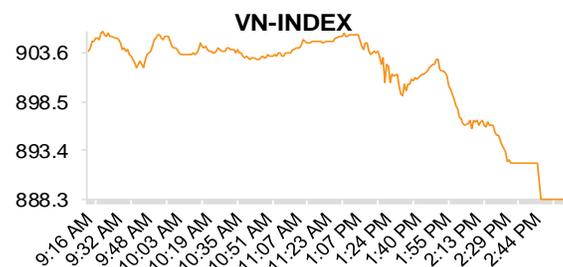

**Only Consumer Staples (+0.1%) rose, while Utilities (-2.8%), IT (-2.7%), and Financials (-2.5%) lost ground today.** Top index movers included BCM (+6.9%), VNM (+0.8%), PDR (+6.9%), HNG (+4.6%) and HAG (+5.7%). Top index laggards consisted of VIC (-2.7%), BID (-3.6%), GAS (-3.5%), VCB (-1.5%), and CTG (-3.8%). Top three major put-through transactions were TCB with 10.3m shares (VND224.8bn), GAB with 0.9m shares (VND133.3bn), and FPT with 2.4m shares (VND109.3bn).

**Foreigners net sold on HOSE to the amount of VND52.3bn, while net bought on HNX to the amount of VND1.5bn.** They mainly bought VNM (VND232.1bn), FUEVFVND (VND97.6bn) and HPG (VND70.9bn); and mainly sold VNM (VND154.4bn), VHM (VND71.6bn) and VCB (VND45.4bn).

## Market News

### Oil extends drop after Saudi price cuts underscore demand fall

Oil extended its retreat below US\$40/barrel after Saudi Arabia cut pricing for October crude sales, as demand struggles to fully recover from the coronavirus outbreak. Futures in New York dropped 1.7% after Saudi Aramco reduced its key Arab Light grade by a larger-than-expected amount for shipments to Asia in a sign that fuel demand in the largest oil-importing region is wavering. The company also lowered prices to the U.S. for the first time in six months. The move compounded losses in the American West Texas Intermediate crude benchmark, which fell 7.5% last week as the demand impact from the coronavirus outbreak continues to weigh on markets. While infection rates in the U.S. are slowing, the pandemic appears to be staging a comeback in parts of Europe and cases in India are still surging. *(Bloomberg)*

### Vietnam aims to diversify local retail market

The Ministry of Industry and Trade (MoIT) plans to consolidate traditional markets in rural areas while developing a large number of convenience stores and diversifying types and methods of modern business. These are part of targets set in the project to develop domestic trade in 2021-25 period. According to the ministry's assessment of 2016-20, the local market has become important for the momentum of sustainable development. Total retail sales and revenue from services saw a high growth rate of 9.2% annually from VND3.5tr (US\$150.7m) in 2016 to VND4.9tr in 2019. The growth was relatively equal among economic regions. Total retail sales of consumer goods and services per capita increased from VND38m in 2016 to VND51.2m in 2019 per person. The contribution of the domestic market to GDP has increased, from 10.5% in 2016 to 11.16% in 2019. It showed the domestic market plays an important role in product consumption. At the same time, it has provided jobs as it employed about 6-7m workers (accounting for more than 12% of the total workforce in the country), contributing to poverty reduction and ensuring social security. Over the past five years, supply and demand connection has also performed well, contributing to stabilising prices in the market, through linking to create a stable source of goods between domestic manufacturers and large distribution systems nationwide. The proportion of Vietnamese goods in retail distribution systems is high with 90% for distribution systems owned by domestic enterprises (90-93% at Co.opmart, 90-95% at Satra and 96% at VinMart). The proportion is more than 70% at foreign supermarkets and commercial centres (90% at Lotte and Big C and 82-85% at AEON and Citimart). However, the MoIT said the overall growth rate was not high compared to potential and the domestic market still has plenty of room to grow. To effectively implement the five-year socio-economic development plan for 2021-25, the ministry has set goals and solutions for domestic trade to continue to play an important role in the economy. The plan hopes to increase the added value of the domestic trade sector's contribution to GDP by 13.5% in 2025. The average annual growth rate in 2021-25 of the total retail sales of consumer goods and services (including the price factor) is expected to hit about 9-9.5% a year, while the proportion of total retail sales of goods by type of modern trade by 2025 will reach 35-40%. Another goal is to gradually complete commercial infrastructure such as shopping malls, supermarkets, trade-service areas, convenience stores, specialised stores, logistics centres, wholesale warehouses and fair centres in big cities. To complete the targets, the ministry will enhance the efficiency of State management over the market; strengthening market regulation capacity for key commodities. At the same time, it will strengthen the management of goods circulation in the market. It hopes to ensure 90% of businesses in provinces and cities no longer display and sell smuggled goods, counterfeit goods, banned goods or goods infringing intellectual property rights by 2025. All businesses nationwide shall list prices and sell them at listed prices. Among the 10 regions with the largest market size in the country, Ho Chi Minh City continued to lead with VND1.08tr in 2019, accounting for 22.1% of the national market and two times higher than the second-highest Hanoi with VND512tr last year, accounting for 10.03% of the total. *(Vietnamnet.vn)*
